

Q1/read the passage and answer the questions

Martin worked in a factory in a big town. He liked fishing very much, and was very good at it. Whenever he was free, he went down to a small river behind the factory and tried to catch fish, but there were very few there because the water was dirty. Then in his holidays he went to the seaside and stayed in a cheap hotel. On his first day he fished in the sea and caught a lot of fish. He was very happy. He gave them to the hotel. They cooked them for all the guests and they enjoyed them very much. After that, he did this every day. But when Martin got his bill at the end of the week, he saw on it : " For oil to fry fish (7 days) : £ 3.50."
